The screenshot displays the website [www.leffamsterdam.com/#collection](http://www.leffamsterdam.com/#collection). The background is a black and white photograph of a modern office interior with people working at desks and a meeting table. A white modal window titled "collection" is centered on the screen, featuring a large image of a clock with an "Expand" button and three smaller circular images. Below the images, there is a link to download the PDF files of the catalogue and social media sharing options for Twitter (2) and Facebook (19). The word "oberste" is overlaid on the right side of the modal. In the bottom right corner, there is a dark grey box with the text: "one75 designed by wiebe teertstra", "10:09h (am) at fronteer strategy, our marketing advisor, amsterdam. / photo by mrperezident ©". At the bottom center, there are five small colored circles (grey, grey, grey, grey, orange).

UNTERNEHMEN

LED-Leuchten und LED-Beleuchtungslösungen entstehen bei Nimbus in der unmittelbaren und intensiven Auseinandersetzung mit der Architektur. Die Erfahrung der über 7.000 realisierten LED-Projekte, angefangen bei Wohnhäusern, Arztpraxen, Schulen und Kindergärten - darunter Waldorfindergärten - bis hin zu Bürogebäuden und Firmenzentralen, zeigt deutlich den gestalterischen, energetischen und technologischen Vorsprung der Nimbus LED.next Leuchten und die hohe Kompetenz der Nimbus Group. Nimbus gilt als Innovationsführer für LED-Innenraumbeleuchtung und überzeugt derzeit als einziger Hersteller mit einer umfassenden LED-Leuchtserie, mit der nahezu alle Beleuchtungsaufgaben erfüllt werden können: behagliche Beleuchtung im Wohnbereich, effiziente Arbeitsplatzbeleuchtung und flächige Allgemeinbeleuchtung.

Nachhaltigkeit und Verantwortung sind für die Nimbus Group keine zeitgeistige Forderung, sondern bereits seit der Gründung des Unternehmens vor über 20 Jahren durch Direktor Bruno von Söhl eine verankerte Grundtatsache in unserer deutsch geliebten Firmenphilosophie. So fördert und unterstützt die Nimbus Group seit vielen Jahren regionale Kinder-, Jugend- und Bildungsprojekte. Sämtliche Unternehmensbereiche - wie Produktentwicklung, Design, Fertigung, Vertrieb und Logistik - sind am Standort in Stuttgart konzentriert und über 90% unserer Zulieferbetriebe sind im Umkreis von 200 km angesiedelt.

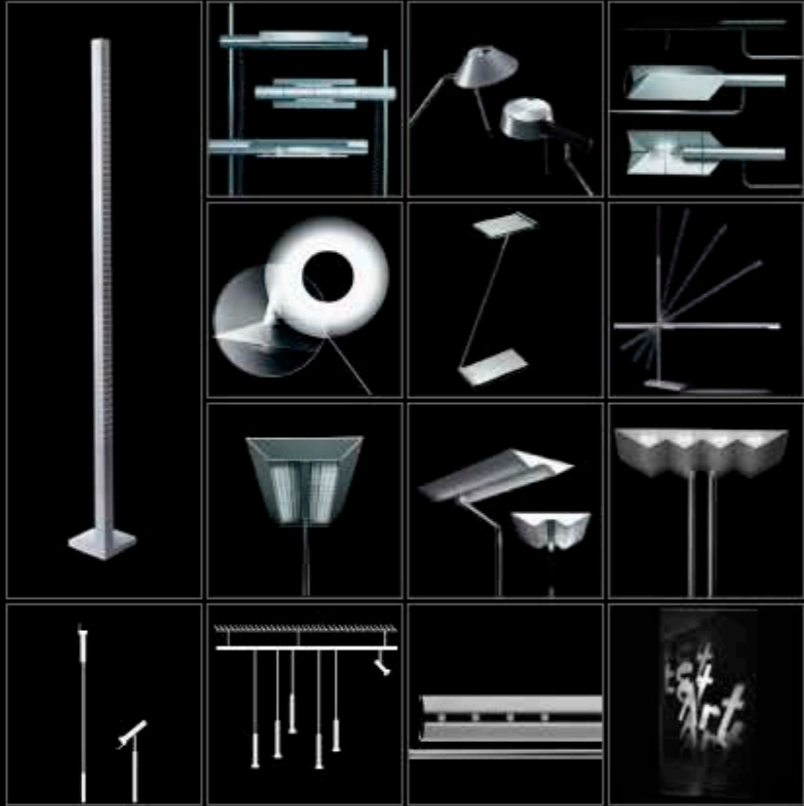

Im Rahmen eines Kooperationsprojektes mit Mercedes-Benz und ENBW werden unsere Lieferfahrzeuge auf Zero-Emission-Elektrofahrzeuge umgestellt. Transportfahrten in der Umgebung und im Stadtgebiet erfolgen emissionsfrei. Der Strom für die Elektrofahrzeuge wird durch eine eigene, auf dem Firmengebäude installierte Solaranlage der neuesten Generation erzeugt.

## COPENHAGUE CHAIR

RONAN & ERWAN BOURULLEC

HAY has invited Ronan and Erwan Bouroullec to design a new collection of furniture for the redesigned University of Copenhagen (KUA). The collection includes a wooden chair, a bar stool and several tables.

The starting point for this series is an old university chair, architect Bernt Pedersen's trestle chair. This chair is a simple and beautiful chair with an uncomplicated identity. In our interpretation we have upheld the original chair typology (trestle chair) and sought to maintain the compelling simplicity of the original chair.

We have attempted to create a range of educational furniture which in form and identity has a clear dating in our age and which in a compelling manner uncovers the current functional needs of a university. It has also been our aspiration to distance ourselves from the slightly institutional expression of the original chair and create furniture with greater originality and a more domestic expression.

The seat and back are mounted in the centre of the seat creating a highly flexible and resilient comfort – the seat follows the movement of the user. The chair also has a flexible back, which bears similarity to the cantilever chairs, which was first

## Boutique Delft Blue Jumper

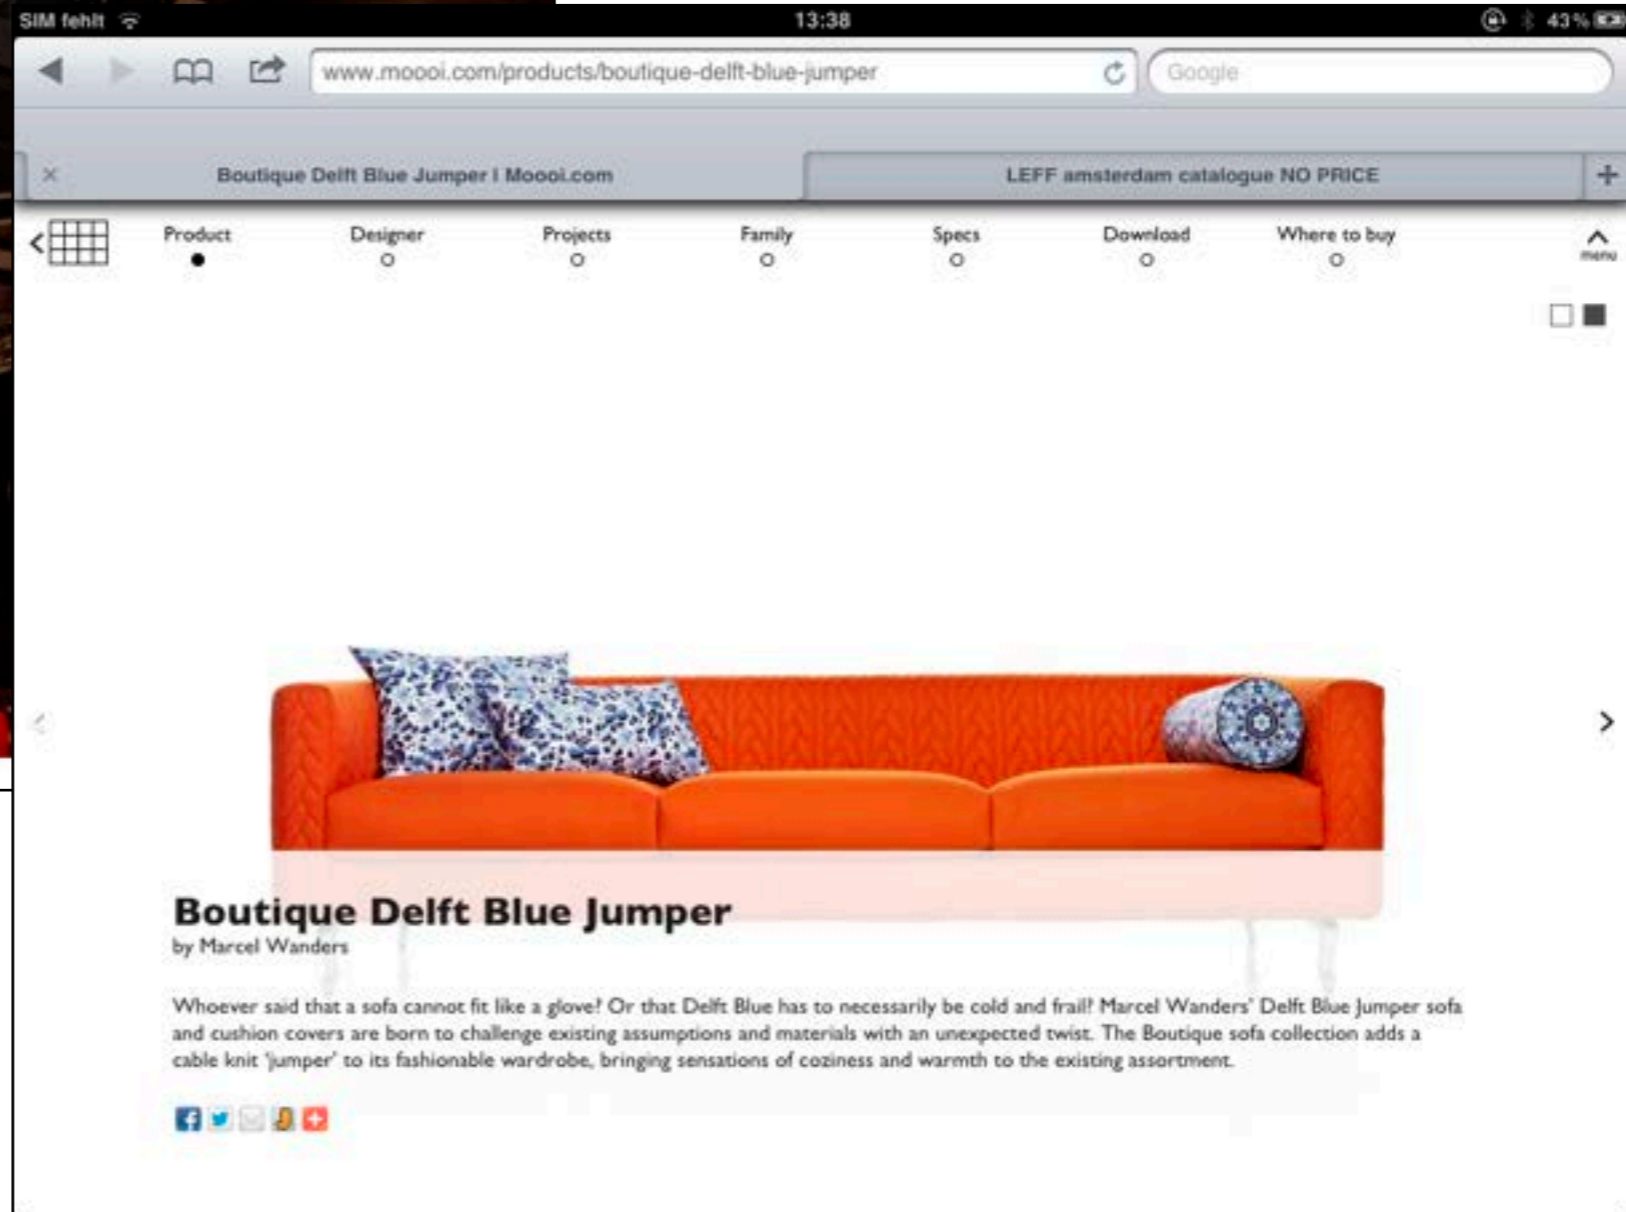

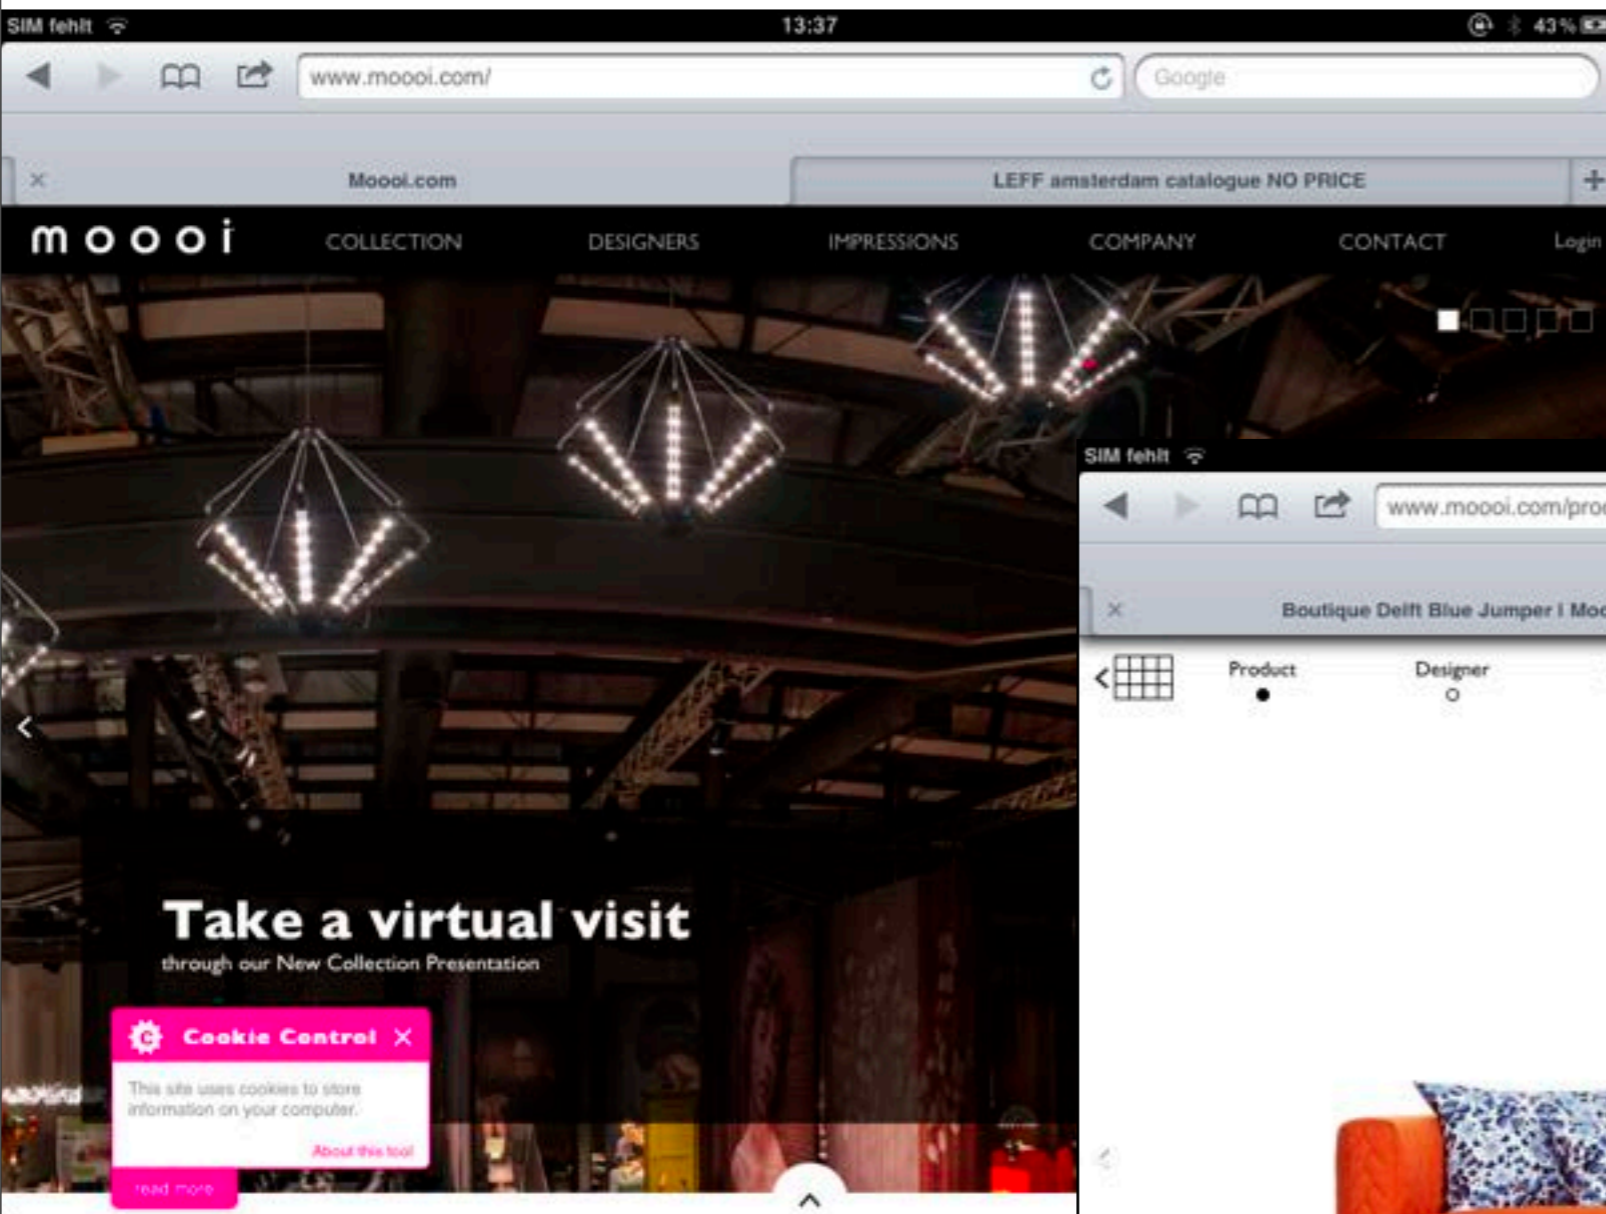

by Marcel Wanders

Whoever said that a sofa cannot fit like a glove? Or that Delft Blue has to necessarily be cold and frail? Marcel Wanders' Delft Blue Jumper sofa and cushion covers are born to challenge existing assumptions and materials with an unexpected twist. The Boutique sofa collection adds a cable knit 'jumper' to its fashionable wardrobe, bringing sensations of coziness and warmth to the existing assortment.
